Create interactive, on-demand presentations

Use Adobe Presenter, included with Acrobat 9 Pro Extended software, to liven up your Microsoft PowerPoint slides. Add video, voice-over, demos, and interactive quizzes to keep your audience engaged and improve knowledge retention. Save your presentation as a PDF file so people can view it wherever they are, whenever it's convenient.

Unify the widest range of content

Assemble documents, drawings, e-mail, spreadsheets, and rich media—including video, audio, 3D, and maps—in a single compressed PDF Portfolio. Choose one of many professional templates to quickly integrate content, define navigation, incorporate branding, and add polish to your PDF Portfolio.

Easily share video in PDF files

Native support for Flash® technology can enable reliable, cross-platform sharing of video, animations, and applications in Acrobat and Adobe Reader. Convert a variety of video formats to FLV for playback in PDF files without needing a special media player.

Create and manage electronic forms

Convert Microsoft Word and Excel documents or scanned paper to PDF forms with automatic recognition of fillable fields. Use Adobe LiveCycle® Designer ES software, a professional form design tool included with Acrobat 9 Pro Extended, to create, customize, and automate dynamic XML forms. Use the Form Tracker to see when forms have been completed and who has completed them. Easily export data to a spreadsheet for analysis and reporting or into a database.

Help protect sensitive information

Control access to and use of PDF documents, assign digital rights, and maintain document integrity. Set document permissions to define whether a file can be printed or changed. Apply passwords to help restrict document access. Use redaction tools to permanently remove sensitive information. Digitally sign and certify documents to validate they came from a trusted source. Create and reuse document security policies that can be easily applied to new PDF files.

Top reasons to buy Acrobat 9 Pro Extended

Include Adobe Reader users
Enable users of free Adobe Reader software to digitally sign documents, participate in shared document reviews, and save forms locally.* By extending Acrobat functionality to Reader users, virtually anyone can participate in the workflows you initiate.

Help protect your documents
Use passwords to help control access to PDF documents. Use permissions to restrict printing, copying, or altering. Save passwords and permissions as security policies that can be easily applied to new PDF files.

Permanently remove sensitive information
Use redaction tools to black out sensitive text, illustrations, or other information, permanently deleting the content from the PDF document. Inspect PDF documents for metadata, hidden layers, and other concealed information, and remove before distributing to others.

Enable virtually anyone to access design data
Convert virtually any 2D and 3D designs—including layers, dimensions, and metadata—to a single PDF file to share product data more easily and securely.

Manage and track document reviews
Gain the input you need through interactive document reviews that enable participants to see and build on each other's comments, which can be sorted by author, date, or page. Use the Form Tracker to monitor progress and participation.
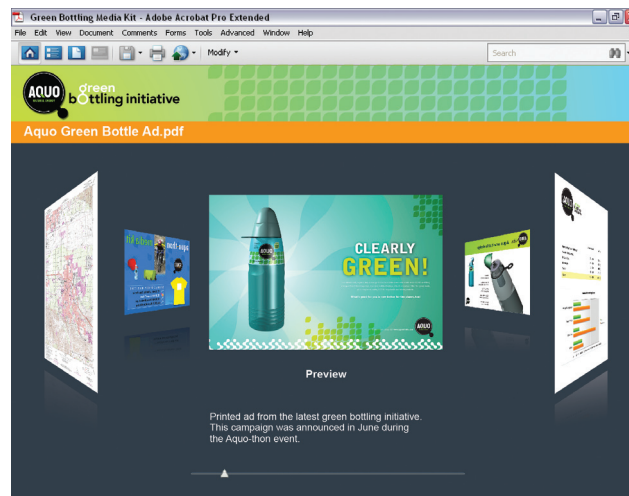

Synchronize document views
Ensure colleagues, clients, and partners are on the same page at the same time with the ability to co-navigate documents. To provide clarity and enhance discussion, e-mail a document and walk recipients through it in real time by controlling the exact page view they see.

Compare PDF documents
Automatically highlight the differences between two versions of a PDF document, including text and images, so you can quickly and easily identify what has changed.

View and interact with PDF maps
Search, measure, and mark up geospatially enabled PDF maps. Discover the longitude and latitude by placing your cursor over a location.

Choose one of many professional templates—or create your own—to quickly integrate content, define navigation, and add polish to your PDF Portfolios.
